Canadian life & health insurers: deep dives on the top 20

Per insurer: key metrics and business mix, leadership to head of public markets with tenure and pay, portfolio-management construct, holdings rotation, leverage and funding, bank and sponsor partnerships, and risk constructs.

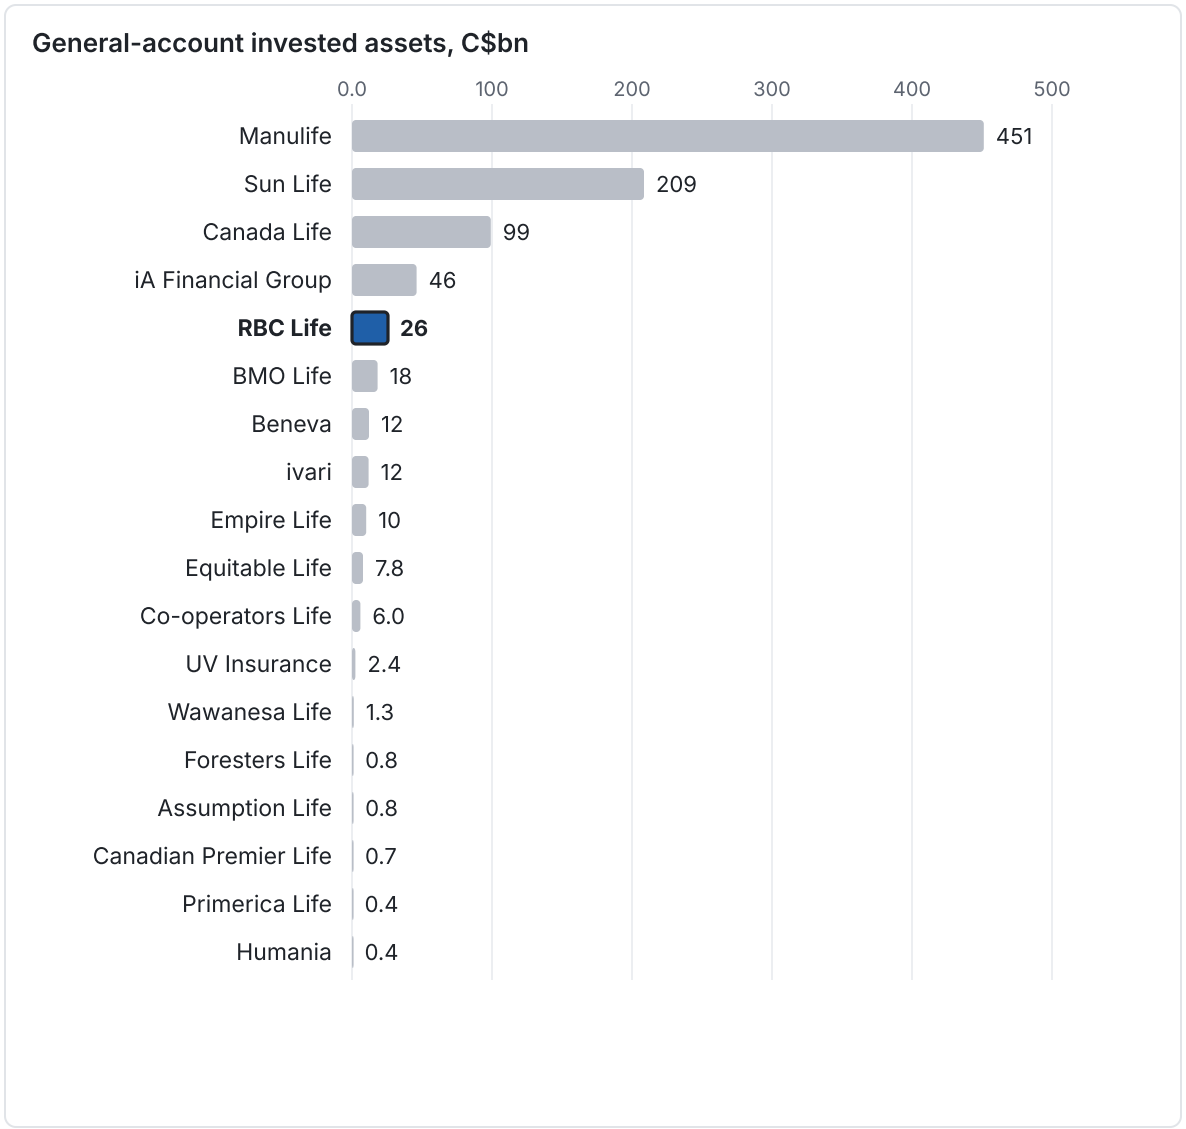

Prepared 3 Nov 2026. Data: OSFI regulatory returns, annual reports and quarterly filings already in the project dataset, plus web research (company sites, proxy circulars, press releases). Figures carry their own as-of dates; gaps are flagged, not estimated.

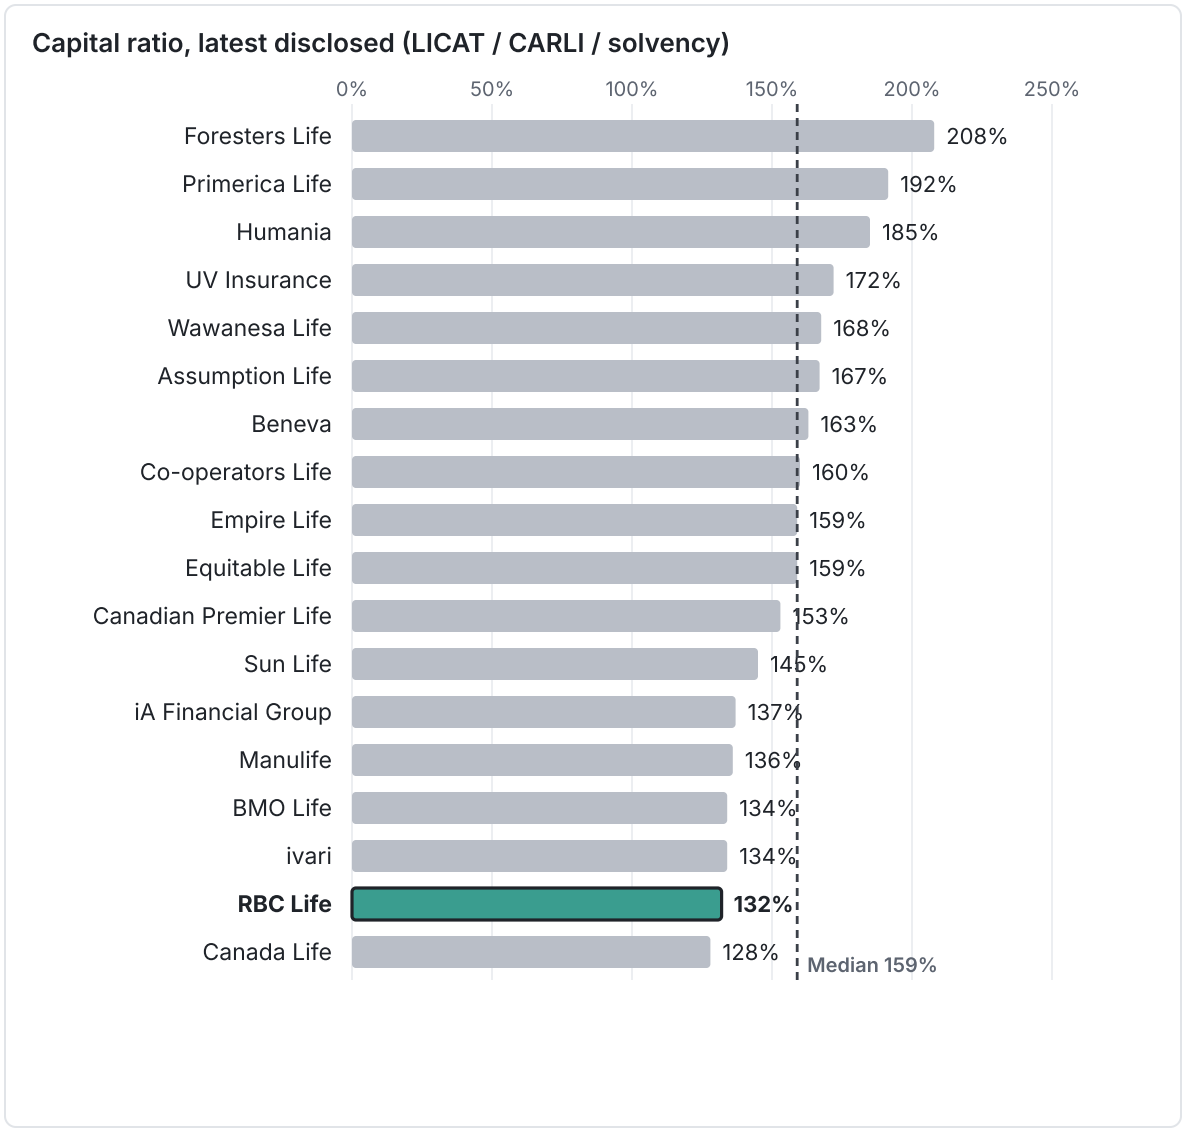

The universe: three groups hold most general-account assets, and only Manulife, Sun Life and iA are listed in their own right

Manulife: general account run by Manulife, alongside Manulife Investment Management

Who manages the money

General account is managed predominantly in-house by Manulife's investment organisation, with Global WAM (Manulife Investment Management) managing C$234.4bn of general-fund assets for the insurance segments; corporate CIO (Trevor Kreel) sets ALM/SAA at MFC level.

How it works

- Global WAM managed C$234.4bn of general-fund assets for other segments at 2025-12-31; intersegment fee revenue earned (FY2025 MD&A).
- ALDA (C$61.7bn, 13% of GA) is 'majority managed in-house'; timber/ag via MIM Timberland & Agriculture; RE 43% US / 38% Canada / 19% Asia.
- Corporate CIO sits on Executive Leadership Team, reports to CEO; distinct from MIM public/private markets CIOs who report into Global WAM.
- Recent construct changes: CQS (2024) and Comvest (75%, closed Q4 2025) add external credit/private-credit capabilities; L&G partnership (Mar 2026).

Rotation per year (pp of portfolio)

What management says about repositioning

- 2025: ALDA returns below long-term expectations drove C$1,662m market experience charge (RE, PE, timber); management retains ALDA strategy but trims RE exposure.
- 2025: Six commercial real estate dispositions (C$0.36bn) in 2025; RE occupancy 82%; office exposure under review.
- 2025: LTC/legacy reinsurance (Global Atlantic 2024, RGA Jan 2025) released capital and reduced ALDA/long-duration asset need; proceeds to buybacks (NCIB).

Sun Life: general account run by Sun Life Asset Management, alongside SLC Management

Who manages the money

General account (C$165bn, Mar 2026) is managed by SLC Management, Sun Life's wholly owned alternatives/fixed-income manager, inside the Sun Life Asset Management pillar (Pres. Tom Murphy, 2026); the insurer's CIO (Randy Brown) sets ALM/SAA and oversees SLC as manager (CIO placement inferred).

How it works

- SLC Management: C$260bn third-party + C$165bn Sun Life general account (Mar 2026);
- CIO Randy Brown's Office of the CIO retains ALM, SAA and manager oversight (inferred from bios); day-to-day public FI, RE, private credit, infra run by SLC affiliates.
- Jan 1 2026 reorganisation: Sun Life Asset Management pillar formalized under Tom Murphy: MFS, SLC, ABSL AMC stake (from Asia) and PRT/DB Solutions (from Canada).
- Mar 30 2026: SLC bought remaining 44% of BGO (C$1.59bn) and 49% of Crescent (C$829m) - affiliates now 100% owned; SLC management equity plan up to 25%.
- Jul 2 2026: SLC acquired Bell Partners (US multifamily, US$350m); Aug 2026: SLC named lead asset manager for Wilton Re / Windsor Life Re partnership (up to US$10bn).

Rotation per year (pp of portfolio)

What management says about repositioning

- 2025: Mortgages & loans 30% of GA invested assets (loans C$45.8bn, 96% investment grade); private fixed income remains the main spread sleeve via SLC Fixed Income.
- 2025: ABS C$14.2bn = 17% of debt securities; growing structured credit through SLC/Crescent capabilities.
- 2025: Investment properties C$9.4bn (5%); real estate experience negative in 2025, exposure held steady while office weighting is reduced (BGO-managed).

Who manages the money

General account is managed in-house by Lifeco's Global Investments function under the EVP & Global CIO (John Melvin, Lifeco/Canada Life), through regional insurer-owned investment teams in Canada, the U.S. (Empower) and Europe (Canada Life Asset Management UK, Irish Life Investment Managers, Setanta), plus GWL Realty Advisors for real estate. Retail asset management is separate: Canada Life Investment Management Ltd. (CLIML, est. 2021) runs Canada Life Mutual Funds largely via sub-advisors, with Power Corp sister Mackenzie (IGM) a core sub-advisor. Private-markets access runs through Power-gr…

iA Financial Group: general account run by iA Global Asset Management, alongside iA Clarington Investments Inc.

Who manages the money

The general fund is managed in-house by iA's Investments sector under EVP & CIO Alain Bergeron, who reports to the CEO. All group investment activity - general fund (Canada and U.S.), segregated funds, iA Clarington mutual funds and oversight of external managers - sits 'under a single authority' and operates under the iA Global Asset Management (iAGAM) tradename, which is used by two legal entities: Industrial Alliance Investment Management Inc. (iAIM, the historic insurer-owned manager) and iA Global Asset Management Inc. iAGAM oversees C$156bn (Jun 30, 2026) with a dedicated general-fund t...

Notes

- Jean-Francois Chalifoux: Mutual; no proxy circular, compensation not disclosed. Named CEO of the Year (Nov 2025).
- Melissa Gilbert: Information as of April 1, 2026 (AR). Likely senior executive over the internally managed portfolio (inferred).
- Michel Fournier: Listed among 'expanded leadership team members'.

Bars: years in seat / at firm (group) / in industry with start year. Pay: total compensation, latest proxy circular or annual report; bank-sub and mutual executives are rarely named; web: beneva.ca, old.investmentexecutive.com

Beneva: general account run by Beneva Inc. in-house investment team, alongside External private-market fund managers

Who manages the money

General account managed in-house by Beneva's investment team under a Board-approved investment policy; private markets accessed through external fund managers; Board Investment Committee oversight.

How it works

- Results release: carbon intensity of 'the internally managed portfolio' down 39% vs 2021 - confirms in-house management (Apr 2026).
- Investment policy approved by Board; compliance checked monthly; deviations and return-to-compliance plans to Board quarterly (AR note 7).
- Investment Committee of the Board carries out regular reviews of the portfolio and its transactions (AR note 7).
- Private debt and private-company investments (C$1.5bn) valued using values published by external managers, i.e. fund/LP structures (AR note 6).
- Investments segmented by line of business and surplus for matching; FVTPL designation used for matching assets (AR note 3).
- C$7.1bn of general-fund 'mutual funds' - a substantial portion of returns accrue to policyholders (UL/investment accounts) (AR note 7).

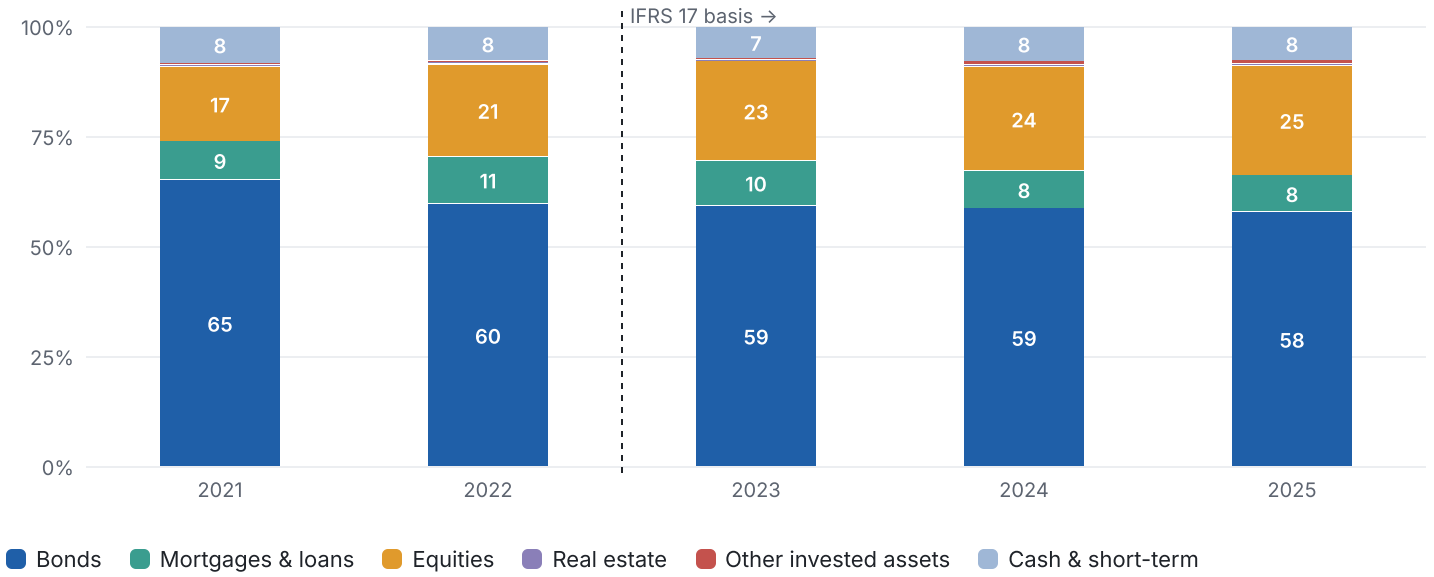

Disclosed targets

Asset class	Target / stated range
Corporate bonds (L&H subsidiaries)	Max 40% of total bond and money-market portfolio
Corporate bonds (P&C subsidiaries)	Max 80% of total bond and money-market portfolio
Bond credit quality	Minimum DBRS B or equivalent; issuer limits for rated/unrated municipals
Private debt	Issuer limits as % of total yielding assets, varying by investment type

Beneva: equities up 8.0pp since 2021Q4; the book rotates ~3.2pp of the portfolio a year

Invested-asset mix, 2021Q4 to 2025Q4 (annual)

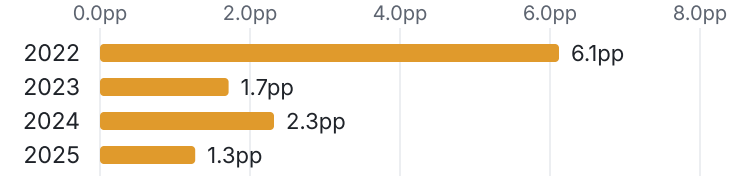

Share of invested assets by harmonised class; excludes policy loans, derivatives, seg funds and pass-through fund units.

Then vs now

Asset class	2021Q4	2025Q4	Δ pp
Bonds	65.2%	57.9%	-7.3
Mortgages & loans	8.7%	8.3%	-0.4

ivari: general account run by ivari, alongside Sagicor Financial

Who manages the money

No external or affiliated asset manager is disclosed; ivari's general account appears to be run in-house under an ALM working group and Board Investment and Risk Committee, with a distinctive construct: ~C$3.6bn (32% of invested assets) sits in ETFs and mutual funds replicating universal-life policyholder fund options, hedged with equity-index and interest-rate futures; the C$6.0bn bond book is 90% >10-year, 34% government/provincial-heavy. Sagicor says ivari has 'margin expansion on investment portfolio' upside.

How it works

- Board Investment and Risk Committee (IRC) and Audit & Conduct Review Committee oversee risk; management Risk and Capital Committee (RCC) sets limits
- ALM working group oversees market-risk strategy, policy compliance, investment and hedging performance
- Bond book C$6.0bn: provincial 1,785, corporate 3,566, foreign issuers 408, federal 245; AAA 6%/AA 29%/A 29%/BBB 36%; 90% matures >10 years; avg yield 5.0% corporate
- C$3.59bn ETFs/mutual funds (ETF 1,381; MF 2,026; other 179) back UL index-linked and seg-fund exposures; futures/money-market strategy hedges credited rates
- Short-term investments C$1.30bn (49% AAA) include futures margin; private placements held (valued by model) but amount not broken out
- Sagicor group portfolio: 68% debt securities, limited real estate/private debt/private equity; group private debt US$305mm (2024: 147) in a new 'other financial invested assets' catego...

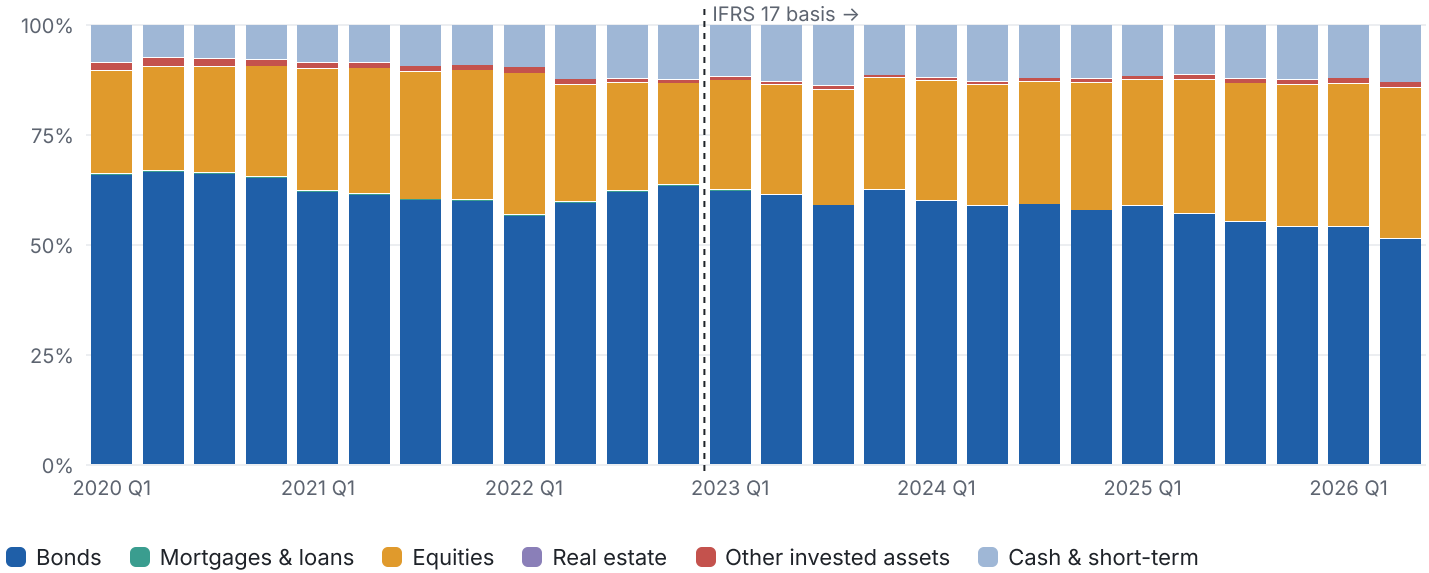

Disclosed targets

No target allocation disclosed.

ivari: bonds down 14.7pp since 2020Q1; the book rotates ~5.2pp of the portfolio a year

Invested-asset mix, 2020Q1 to 2026Q2 (quarterly)

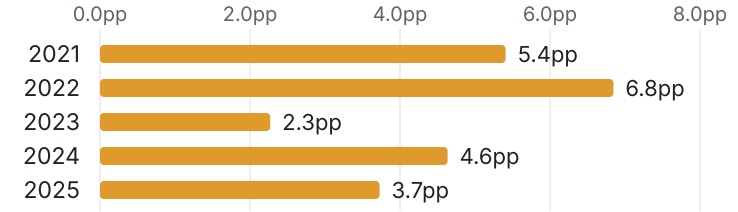

Share of invested assets by harmonised class; excludes policy loans, derivatives, seg funds and pass-through fund units.

Then vs now

Asset class	2020Q1	2026Q2	Δ pp
Bonds	66.1%	51.4%	-14.7
Mortgages & loans	0.0%	0.0%	-0.0
Equities	23.4%	34.2%	+10.8
Other invested assets	1.8%	1.3%	-0.6
Cash & short-term	8.7%	13.1%	+4.4

Rotation per year (pp of portfolio)

What management says about repositioning

- 2026: Sagicor flags 'margin expansion on investment portfolio' at ivari and says it is 'optimizing our balance sheet' in Canada (Q2 2026 call); core earnings up on higher expected investment earnings.
- 2026: CEO acknowledged IFRS 17 market volatility is 'more pronounced' than big public peers and that curbing tails/hedging the investment program is under active board discussion.
- 2025: Bonds fell to C$6.01bn from C$6.11bn (governments -C$215mm, corporates +C$91mm, energy +C$89mm) while ETFs/mutual funds rose to C$3.59bn from C$3.07bn; short-term up to C$1.30bn.

Empire Life: general account run by Empire Life Investments Inc., alongside External sub-advisers for seg funds

Who manages the money

In-house: wholly owned Empire Life Investments Inc. (ELII, est. 2011) runs the general account and most seg funds under the SVP & CIO; external sub-advisers (Fidelity) and LP funds for alternatives.

How it works

- CIO, Asset Management Committee and Board Investment Committee oversee in-house and external managers; monthly asset-mix reporting
- Board Investment Guidelines allow private debt, LRCNs, mortgages, real estate, PE, infrastructure, high-yield mortgages
- Four Fidelity-powered seg funds added 2025; Multi-Strategy GIF team selects third-party funds
- Related-party investment services with E-L Financial group at market terms; amounts 'not significant' (AR Note 22)
- Securities lending via custodian as agent; derivatives: no leverage, strict counterparty limits

Disclosed targets

Equitable Life: general account run by Equitable Asset Management division, alongside External fund managers: PE

Who manages the money

In-house Asset Management division (bottom-up credit, active duration, ETFs for public equity) manages the general account; external funds for PE, infrastructure equity and part of real estate; no affiliated manager.

How it works

- Strategic asset allocation per portfolio with active tilts; own credit research for bonds, private placements and commercial mortgages
- Public equity via ETFs; preferred shares IG-focused for tax-advantaged dividends
- Investment property direct and via external funds; commercial mortgages originated in-house (LTV to 75%, CMHC-insured above)
- Oversight: Asset Management Committee and Board Investment Committee; custodian is securities-lending agent with borrower indemnity
- GF managed assets (AR p.11): bonds 38%, public equity 26%, private placements 12%, property 8%, mortgages 7%, prefs 6%, PE 2%, other 1%

UV Insurance: general account run by Sun Life Capital / SLC Management

Who manages the money

Fully outsourced general account. In 2025 UV ran a tender for the management of its assets and appointed Sun Life Capital (SLC Management, Sun Life's institutional asset manager) as manager of 'our various portfolios'; a first Responsible Investment Policy (ESG integration) was adopted at the same time. Oversight by the board Investment Committee (chaired by ex-FÉRIQUE CEO Fabienne Lacoste) and the SVP Actuarial & Finance. The prior manager is not disclosed.

How it works

- 2025 RFP for asset management won by Sun Life Capital; transition 'virtually seamless' (Chair's message, AR 2025)
- New Responsible Investment Policy (2025) integrates ESG factors into investment strategy; part of 2025-2030 Sustainable Development Strategy
- Board Investment Committee of five directors (two CFAs, two FSAs, one CPA); ex-Addenda Capital executive Benoît Durocher joined 2025
- No internal CIO or trading desk disclosed; finance/actuarial under SVP Pierre Parenteau
- Private investments C$102mm (4% of investments; type not disclosed) and loans C$53mm held alongside the bond-heavy (81%) book

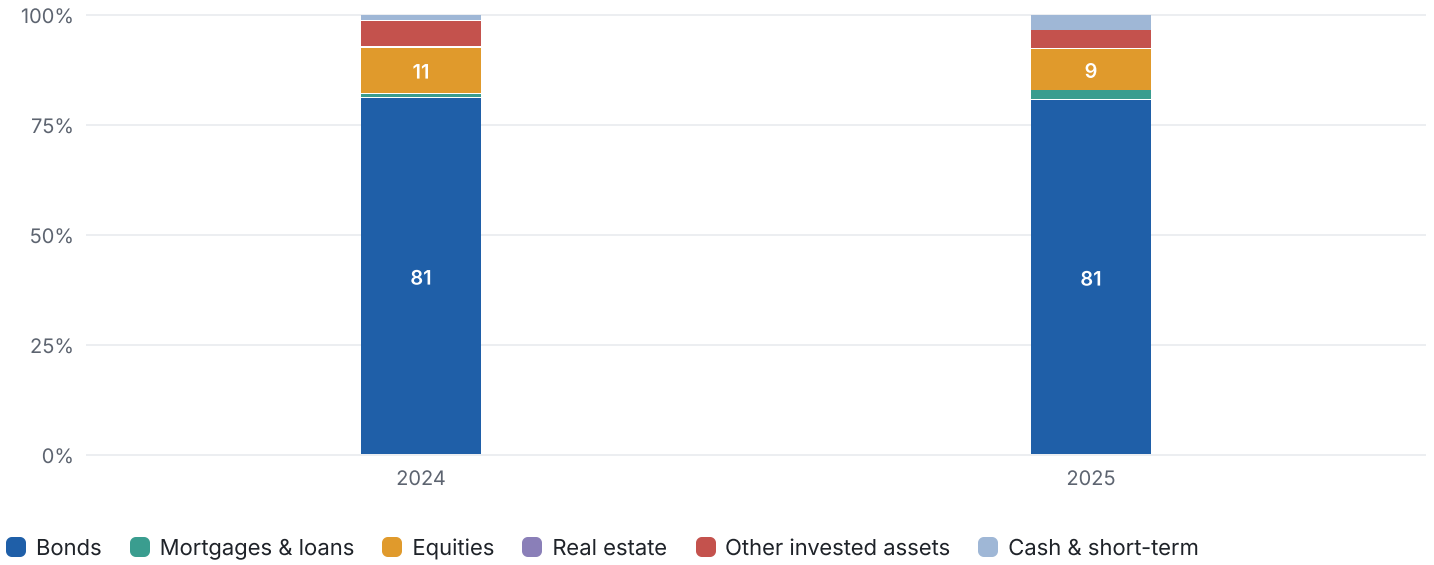

Disclosed targets

No target allocation disclosed.

UV Insurance: cash & short-term up 2.1pp since 2024Q4; the book rotates ~3.3pp of the portfolio a year

Invested-asset mix, 2024Q4 to 2025Q4 (annual)

Share of invested assets by harmonised class; excludes policy loans, derivatives, seg funds and pass-through fund units.

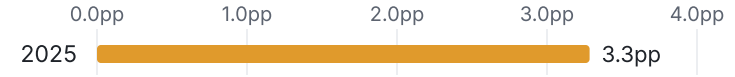

What management says about repositioning

- 2025: Asset management re-tendered and moved to Sun Life Capital (SLC); Chair expects assets to 'grow in line with existing policies' incl. new Responsible Investment Policy.
- 2025: Balance-sheet data: bonds +C$567mm (to 1,926), common stock +C$88mm (to 121), loans +C$36mm, preferreds -C$40mm, as BMO block assets were absorbed; money market up to C$57mm.
- 2026: SVP Parenteau: IFRS 17 'has the potential to produce more volatile results'; UV is 'changing its strategies to produce more stable and predictable results' (ALM/accounting stance, not a mix tar...

Wawanesa Life: general account run by External investment managers, alongside Wawanesa Life

Who manages the money

Group-level construct: the Board Investment Committee approves Investment Policy Statements and guidelines; portfolios appear to be run through external investment managers (FS cite 'investment managers' as valuation sources and a payable 'due to the investment manager'), with Wawanesa Life itself acting as investment manager of its segregated funds. No in-house asset-management affiliate.

How it works

- Investment Policy Statement sets maximum equity levels and credit limits; approved by Investment Committee of the Board (quarterly credit and interest-rate reporting)
- Equities held largely via pooled funds (common stocks/pooled funds C$232mm); fixed income C$1.02bn, ~A-rated average (AAA 120, AA 293, A 366, BBB balance)
- Securities lending run through the custodian's program (custodian guarantee, daily mark-to-market over-collateralisation)
- Assets invested to match liability cash flows by segment (par vs non-par); interest-rate risk monitored by management and Board Investment Committee
- Group ESG: PRI signatory, PCAF member (Jul 2026); impact-investment goal 10% of P&C and Life portfolios by 2030 (6% at YE2025)

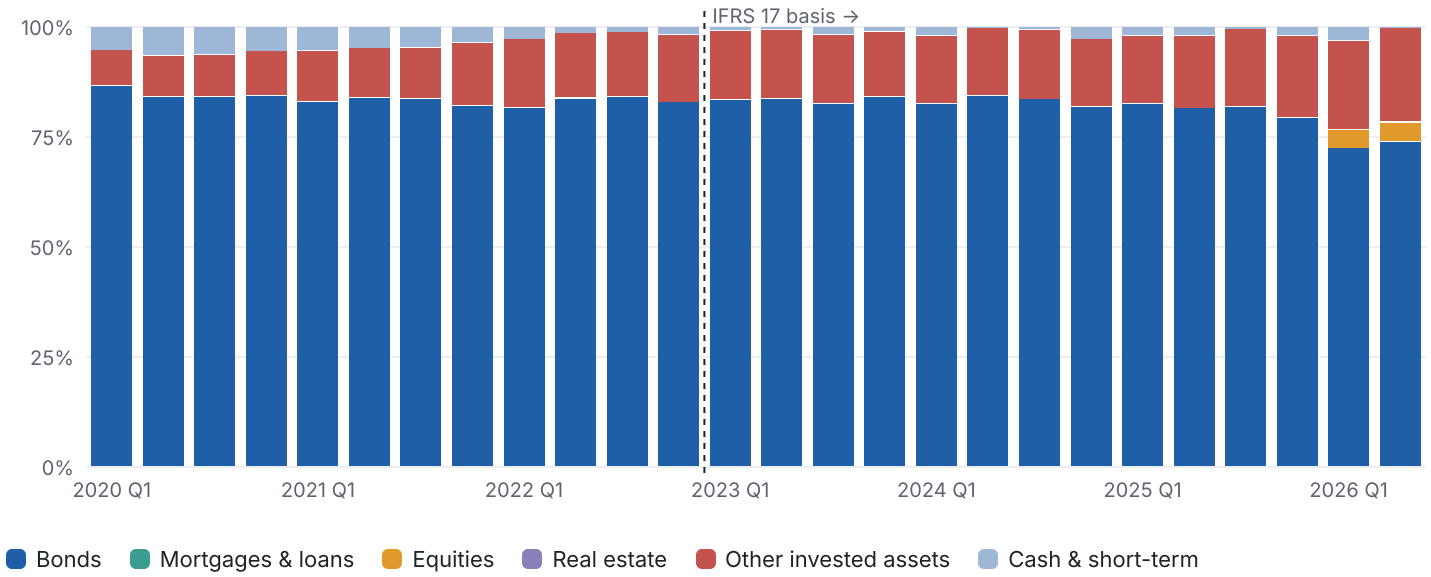

Disclosed targets

Asset class	Target / stated range
Impact / sustainable investments...	At least 10% by 2030 (6% achieved at 2025-12-31)

Wawanesa Life: other invested assets up 13.2pp since 2020Q1; the book rotates ~2.9pp of the portfolio a year

Invested-asset mix, 2020Q1 to 2026Q2 (quarterly)

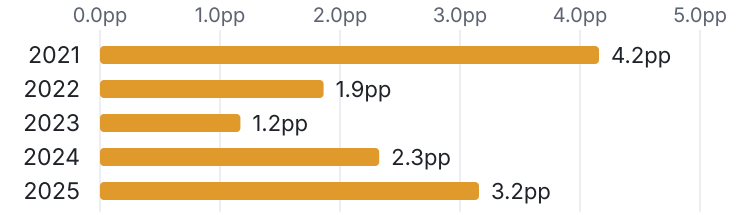

Share of invested assets by harmonised class; excludes policy loans, derivatives, seg funds and pass-through fund units.

Then vs now

Asset class	2020Q1	2026Q2	Δ pp
Bonds	86.5%	73.9%	-12.6
Equities	0.0%	4.4%	+4.4
Other invested assets	8.2%	21.4%	+13.2
Cash & short-term	5.4%	0.3%	-5.1

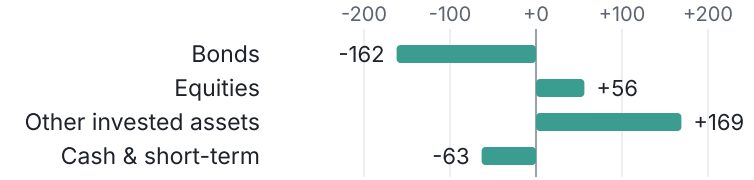

Rotation per year (pp of portfolio)

What management says about repositioning

- 2025: Common stocks rose to C$232mm from C$189mm (market gains; minimal purchases) while fixed income edged down to C$1.02bn; equities now ~19% of invested assets.
- 2025: Group: 'investments are managed in a conservative manner'; sustainable/impact allocation 6% of enterprise portfolio vs 10% target by 2030; Scope 3 financed-emissions target -25% by 2030.
- 2025: Fixed-income book is long: C$1.56bn of C$1.92bn undiscounted FI cash flows fall beyond five years (duration-matched to life liabilities).

Foresters Life: general account run by External asset managers, alongside Fiera Capital

Who manages the money

General account is 100% externally managed (AM Best, Oct 2025); Foresters exited asset management in 2019 (Canadian arm to Fiera Capital, US arm to Macquarie) and retains a small internal Investments team that sets policy and oversees external managers under Board-approved Investment Policy.

How it works

- Board Risk and Investment Committee approves Investment Policy; enterprise-wide and segment-level portfolio limits
- Assets segmented by liability block and geography (US branch, Canada, FLIC, UK); managed in relation to each segment's liabilities
- Internal Investments team surveys external asset managers annually on ESG; discusses climate/credit risk with managers
- FLIC is charged by IOF for shared services incl. investment management (C$8.8mm total support-function charge in 2025)
- Asset management sold 2019: FAM (C$10.5bn AUM) to Fiera; US First Investors funds to Macquarie; broker-dealer to Cetera

Disclosed targets

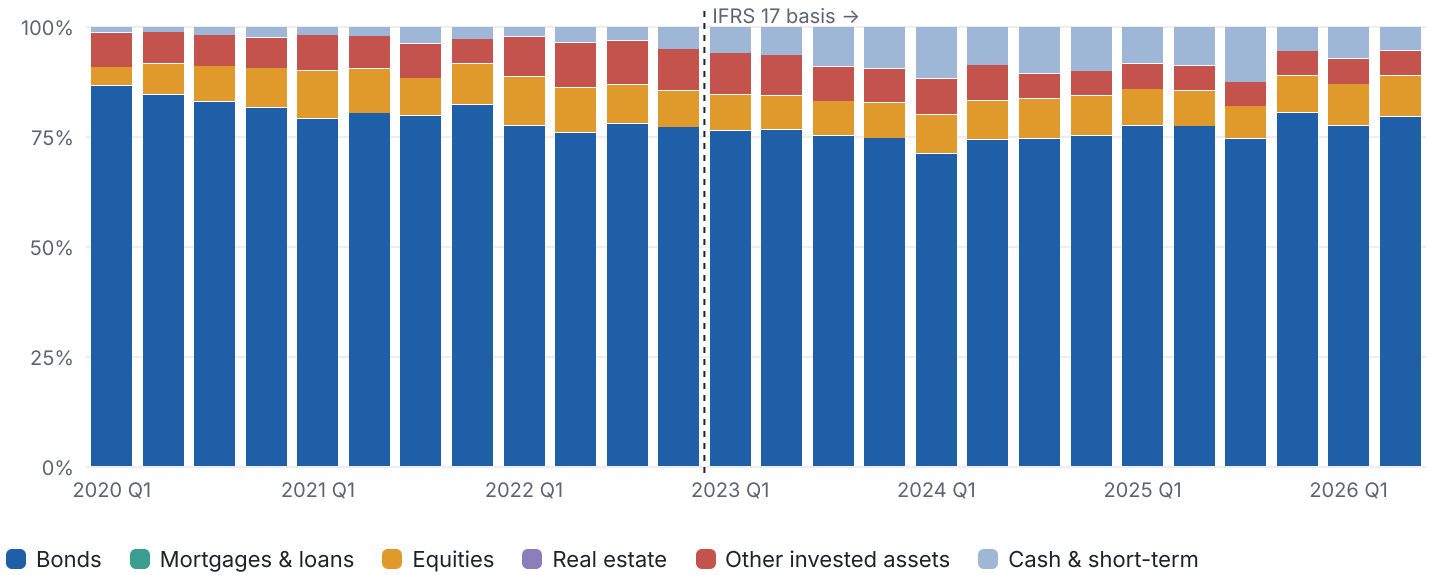

No target allocation disclosed.

Rotation per year (pp of portfolio)

What management says about repositioning

- 2025: Mortgages grew to C$294mm from C$244mm; corporates rose to C$4.68bn from C$4.25bn while governments fell to C$1.54bn from C$1.79bn (AAA bucket halved to C$548mm).
- 2025: FLIC LPs (real estate, private debt, infrastructure equity) steady at C$46mm; IOF 'other invested assets' (LPs) C$299mm, ~3.7% of invested assets.
- 2025: Strategy refocused on life insurance; developing a US multi-year guaranteed annuity (MYGA) to diversify an almost all-life product mix (AM Best).

Foresters Life: no dealer-led public issuance; 5 notable deals since 2020

Notable deals and transactions, 2020-2026

2021	Intra-group 100% quota-share coinsurance of FLIC non-par block to IOF (Oct 1, 2021) to optimise capital
2020	Acquired Canada Protection Plan Inc. (Oct 1, 2020), its long-standing no-medical distribution partner; now the main Canadian channel
2020	Sold Foresters Life Insurance and Annuity Company (FLIAC, US) to Nassau Group (closed Jul 1, 2020), cutting interest-sensitive/variable exposure
2020	Acquired the Halifax Child Trust Fund block in the UK (plans transferred Apr 2020)
2019	Sold Foresters Asset Management (Canada, ~C$10.5bn AUM) to Fiera Capital; US asset management (First Investors) to Macquarie; broker-dealer to Cetera

Canada Protection Plan: a Foresters distribution brand, so its investments, capital and risk sit in Foresters Life

How Canada Protection Plan fits into Foresters

- CPP Inc. is an 'insurance broker and administrator' subsidiary of IOF (IOF FS note 22)
- FLIC reinsures its non-par in-force block 100% to IOF, so CPP-sourced liabilities ultimately sit at IOF
- AM Best: most Canadian distribution for FLIC/IOF Canada branch runs through the Canada Protection Plan program, with a shift toward whole life
- No separate financial statements: CPP is a distribution brand/agency; all balance-sheet items are in Foresters Life / IOF filings
- No named CPP president or leadership team on cpp.ca (leadership URL 404); no 2024-2026 appointment releases found
- Policy count, in-force volume and advisor headcount not published

Where to look

Canada Protection Plan issues no separate financial statements: its policies are underwritten by Foresters Life Insurance Company. Portfolio, leverage, partnership and risk pages for Foresters Life (previous section) cover these assets.

Assumption Life: general account run by Louisbourg Investments Inc., alongside CI Investments

Who manages the money

Who manages the C$0.8bn non-par general account is not disclosed. Investment and mortgage credit policies set limits in-house; other seg funds sub-advised by CI, Fidelity, Franklin Templeton and ETF-based portfolios.

How it works

- No CIO at the insurer; FS note 5 says credit risk is run 'through the Group's investment policy' with limits by geography, issuer type, rating, maturity
- Louisbourg (est. 1991, 28 staff, 7 PMs) grew AUM 2.8bn to 3.1bn in 2025; five strategies top-quartile in RBC Pooled Fund Survey
- Seg fund shelf: Assumption/Louisbourg funds plus Assumption/CI, Fidelity and Templeton sub-advised funds (seg fund FS, 2025)
- Mortgage book (C$182mm) underwritten in-house under a specific credit policy; commercial, insured and other residential
- Lavvi (52%) is the group's insurtech platform subsidiary, not an asset manager

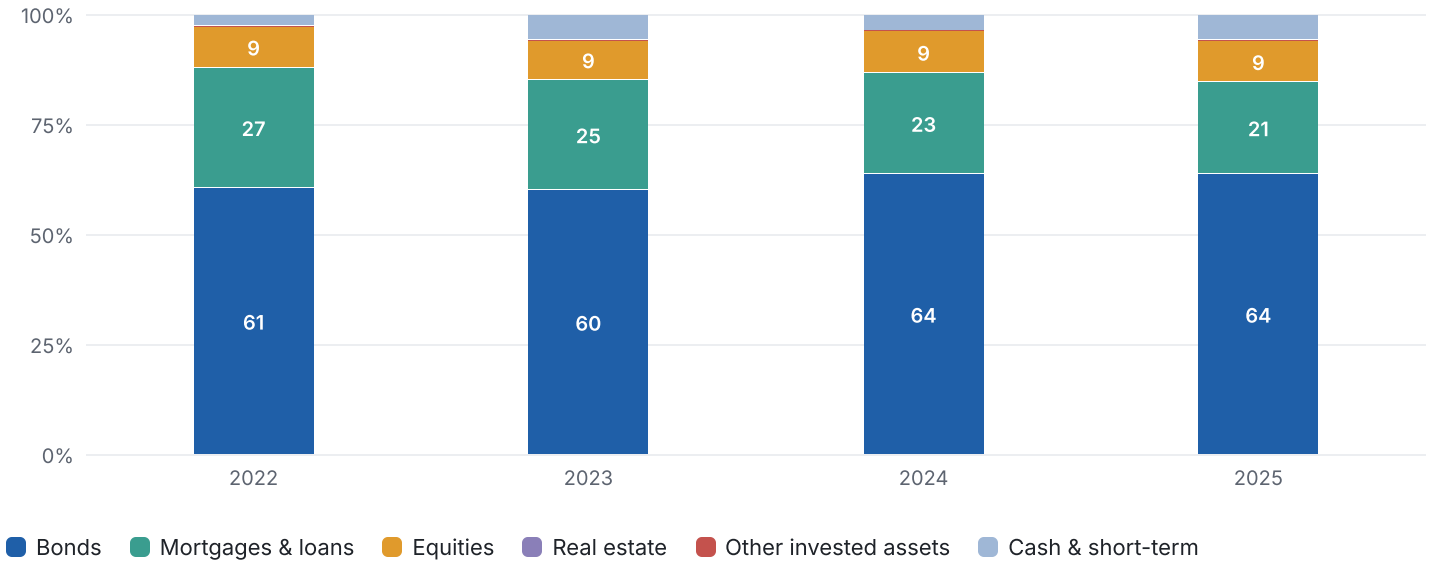

Disclosed targets

No target allocation disclosed.

Assumption Life: mortgages & loans down 6.4pp since 2022Q4; the book rotates ~3.3pp of the portfolio a year

Invested-asset mix, 2022Q4 to 2025Q4 (annual)

Share of invested assets by harmonised class; excludes policy loans, derivatives, seg funds and pass-through fund units.

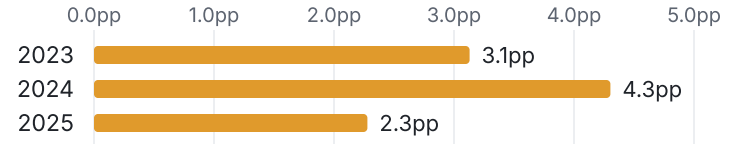

What management says about repositioning

- 2025: No portfolio-repositioning narrative in AR 2025; commentary is on seg-fund fee cuts, Louisbourg AUM growth and a 2026-2030 strategic plan ('human, simple, accessible').
- 2025: Note 4 shows a surplus-style book: C$87.7mm government bonds and C$25.0mm insured mortgages at amortized cost; C$64.6mm preferred shares designated FVOCI (no recycling).
- 2026: CEO: growth 'put pressure on operations'; 2026 spend goes to admin-system upgrades for individual and group platforms, partners to be chosen in 2026 (no asset-mix guidance).

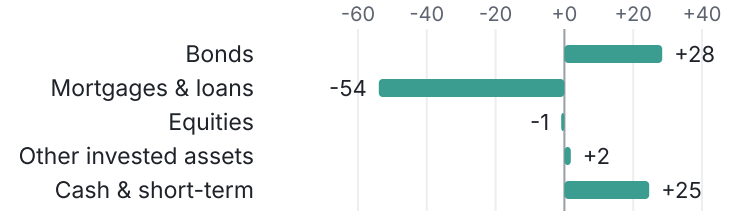

Then vs now

Asset class	2022Q4	2025Q4	Δ pp
Bonds	60.7%	63.9%	+3.2

Canadian Premier Life: portfolio-management construct not disclosed

Who manages the money

Canadian Premier Life general account
C$694MM invested assets

Manager structure not disclosed.

Not disclosed. Securian Canada publishes no financial statements and names no investment officer; the OSFI balance sheet shows a C$0.67bn portfolio of public corporate and government bonds plus C$0.18bn of common shares (incl. UL-backing equities). The parent's captive manager, Securian Asset Management (St. Paul; fixed income, private credit, CRE, LDI), runs the group general account, so delegation to it is plausible but unconfirmed.

How it works

- No CIO, investment committee or manager named in any Canadian disclosure (leadership page, LICAT, B-15 report)
- OSFI LF1: bonds fell to C$461mm (2026 Q2) from C$698mm (2024 Q4); common shares rose to C$177mm from C$99mm (step-up in 2025 Q2)
- Portfolio is public-market only per OSFI lines: no mortgages, no private placements, no real estate reported
- Parent GA C$38.8bn (2025): 'mostly higher credit quality… private corporate bond allocations growing' (AM Best, Dec 2025)
- Capital managed under a Board-approved Capital Risk Management Policy with internal LICAT ratios per OSFI A-4

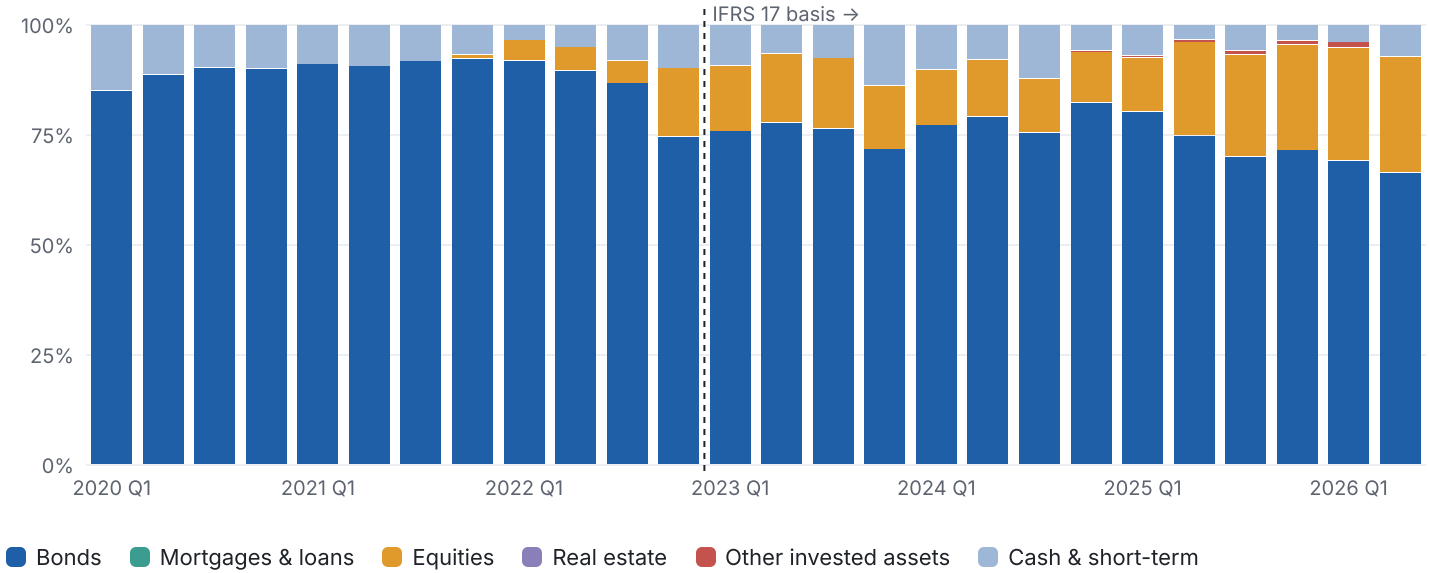

Disclosed targets

No target allocation disclosed.

Canadian Premier Life: equities up 26.3pp since 2020Q1; the book rotates ~11.2pp of the portfolio a year

Invested-asset mix, 2020Q1 to 2026Q2 (quarterly)

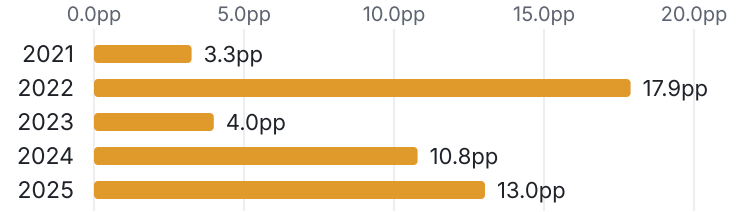

Share of invested assets by harmonised class; excludes policy loans, derivatives, seg funds and pass-through fund units.

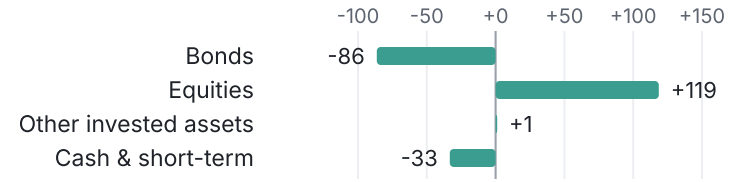

Then vs now

Asset class	2020Q1	2026Q2	Δ pp
Bonds	85.0%	66.3%	-18.7
Equities	0.0%	26.3%	+26.3
Cash & short-term	15.0%	7.3%	-7.7

Rotation per year (pp of portfolio)

Net reallocation since start, C$MM

What management says about repositioning

- 2025: No company commentary. OSFI data: total investments -19% (C$827mm to C$667mm, 2024 Q4 to 2026 Q2) as insurance liabilities ran off/were ceded; public corporate bonds -34%, common shares +80%.
- 2025: Climate report: 'Portfolio monitoring and increased integration of climate considerations into investment decision-making' identified as an opportunity; no emissions targets; portfolio carbon r...
- 2025: Parent (AM Best): investment yield declining but trending up; losses on derivatives hedging variable products as rates rose; private corporates growing.

Canadian Premier Life: little disclosed balance-sheet leverage

Debt & hybrids outstanding	Financial leverage ratio	Repos	Securities lending	Derivative notional
n/d	**n/d**	**n/d**	**n/d**	**n/d**
none disclosed	as disclosed			OSFI LF3 (legal entity)

Debt and hybrid issuance, 2023-2026

No 2023-2026 issuance found.

Repo, securities lending and structured / indirect lending

- Repos: None reported in OSFI LF3 extract.
- Sec lending: Not disclosed; no financial statements published. OSFI LF3 off-balance-sheet lines in the repo show no repo/securities-lending entries for this entity.
- ABS, if any, sit inside OSFI 'corporate public' bonds (C$342mm) and cannot be separated. No CLO, fund-finance or funding-agreement exposure disclosed.
- Reinsurance: Sun Life Sponsored Markets block came with reinsurance; reinsurance contract held assets C$57.3mm (2026 Q2).

Primerica Life: general account run by Third-party investment advisor, alongside Primerica, Inc. investment committee

Who manages the money

Group-level, outsourced construct: Primerica's investment committee (senior management) sets guidelines; a single unnamed third-party investment advisor manages the invested-asset portfolio and reports to the committee. Canadian-dollar assets are held within the group portfolio to back Canadian liabilities; there is no Canadian investment team or affiliated asset manager. Canadian segregated funds (legacy Common Sense Funds) use a third-party advisor for asset allocation; Canadian mutual-fund distribution relies on AGF and Mackenzie as manufacturers.

How it works

- Conservative strategy: preservation of capital and liquidity; limits on asset type, issuer, credit quality, duration and country
- Portfolio (Jun 30 2026, group US$4.1bn): public corporates 45.2%, MBS 15.8%, cash & equivalents 14.6%, private placements 8.7%, ABS 6.0%, government 5.6%, CMBS 1.9%, munis 1.1%, equiti...
- Ratings (amortised cost): AAA 18.4%, AA 13.6%, A 24.8%, BBB 42.4%, below IG 0.9%; duration 5.2y; book yield 4.4%
- Term-life model means little spread/accumulation business: profitability less sensitive to investment income than peers
- PFSL Fund Management Ltd. (Canadian fund manager) manages legacy Concert Series funds with a third-party advisor on allocation; PFSL Investments Canada is exclusive principal distribut...
- Seg funds: legacy Common Sense Funds underwritten by PLICC (sales fell sharply after June 2023 regulatory changes); since 2025 Primerica distributes Canada Life seg-fund contracts inst...

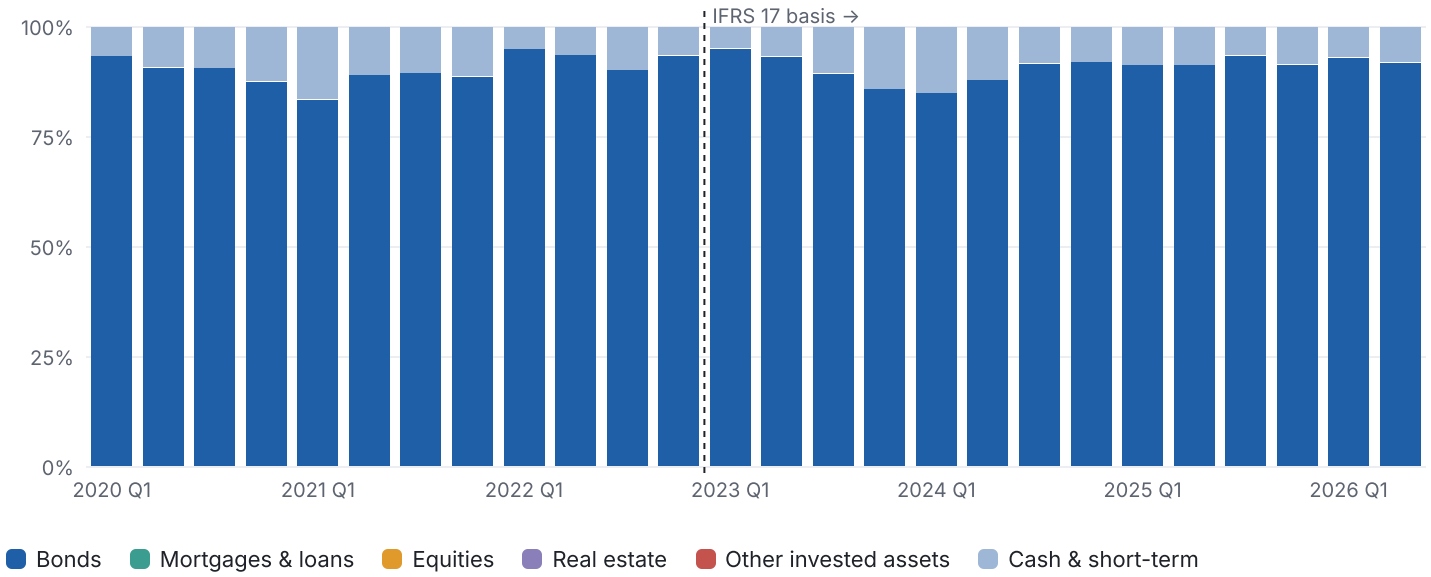

Disclosed targets

No target allocation disclosed.

Primerica Life: bonds down 1.5pp since 2020Q1; the book rotates ~3.1pp of the portfolio a year

Invested-asset mix, 2020Q1 to 2026Q2 (quarterly)

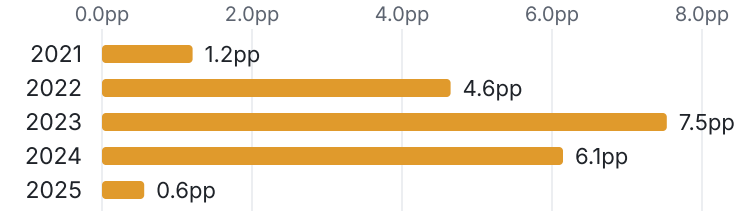

Share of invested assets by harmonised class; excludes policy loans, derivatives, seg funds and pass-through fund units.

Then vs now

Asset class	2020Q1	2026Q2	Δ pp
Bonds	93.3%	91.8%	-1.5
Cash & short-term	6.7%	8.2%	+1.5

Rotation per year (pp of portfolio)

Net reallocation since start, C$MM

What management says about repositioning

- 2026: Group portfolio grew to US$4.1bn; unrealised loss US$140mm is rate-driven, intent and ability to hold to maturity; growth in invested assets lifted net investment income (Q2 2026 NII US$43.7mm...
- 2025: Primerica Life Canada statutory capital rose to US$903.3mm from US$696.2mm while paying US$45.3mm dividends; dividend capacity US$215.7mm at Jan 1 2026.
- 2025: Shift of Canadian seg-fund business from PLICC's own Common Sense Funds to distributing Canada Life contracts (rolled out 2025) reduces PLICC's seg-fund growth and fee base.

Primerica Life: little disclosed balance-sheet leverage

Humania: general account run by External managers

Who manages the money

Outsourced model: the board Investment Committee (directors, officers and external experts) sets the investment policy, selects external investment managers within its authority, reviews manager performance quarterly and monitors asset-liability matching. Manager names are not disclosed. Private-market exposure is via funds (real estate, infrastructure, private debt).

How it works

- Investment Committee recommends investment policy to Board; quarterly review of policy, manager reports and ALM matching
- Committee also oversees LS Travel's portfolio; external expert member (Michel Pelletier) sits on it
- Single internal VP Investment & Special Projects (Luc Bergeron, FCIA FSA) in 2025 AR; no in-house trading desk disclosed
- Alternatives held through funds: real estate C$19.6mm, infrastructure C$14.3mm, private debt C$3.2mm (first allocation 2025)
- Cash-flow hedge accounting used (derivative assets C$0.1mm, liabilities C$0.1mm; OCI hedge reserve movements)

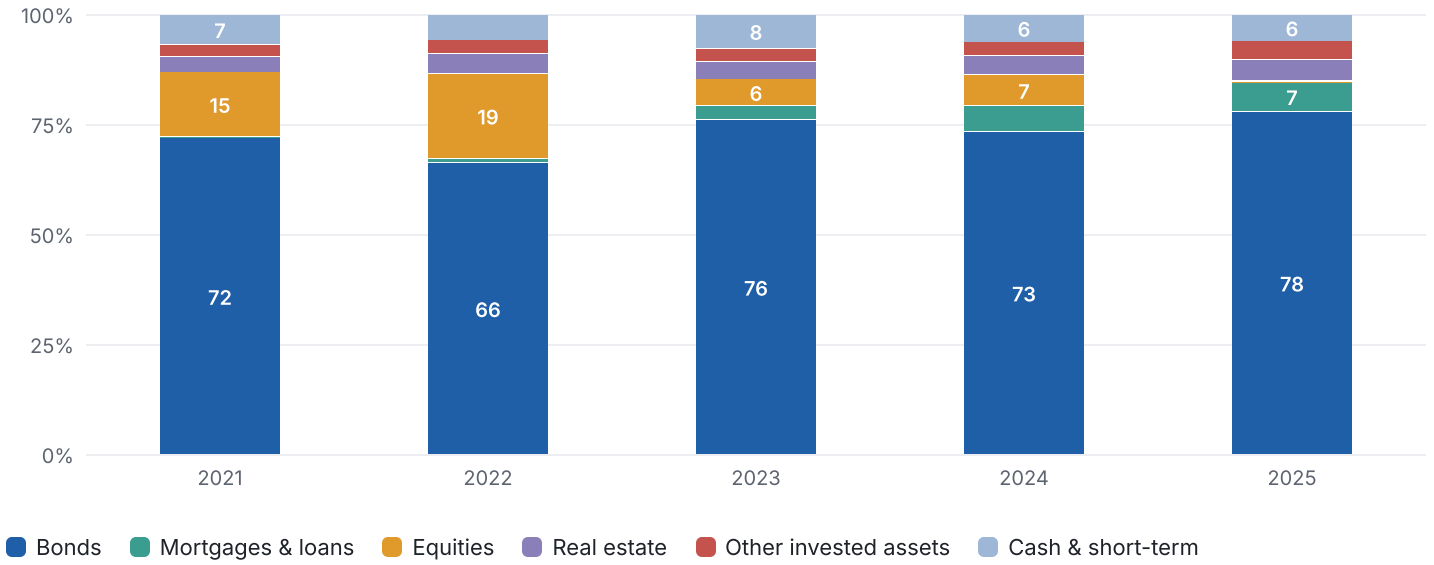

Disclosed targets

No target allocation disclosed.

Humania: equities down 14.5pp since 2021Q4; the book rotates ~5.9pp of the portfolio a year

Invested-asset mix, 2021Q4 to 2025Q4 (annual)

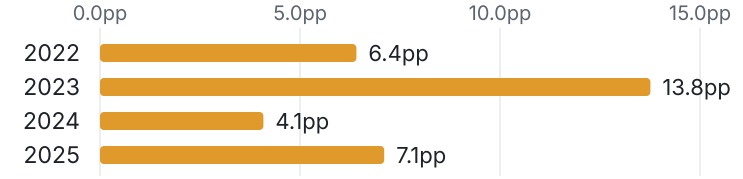

Share of invested assets by harmonised class; excludes policy loans, derivatives, seg funds and pass-through fund units.

Then vs now

Asset class	2021Q4	2025Q4	Δ pp
Bonds	71.9%	78.0%	+6.1
Mortgages & loans	0.3%	6.7%	+6.4
Equities	14.7%	0.1%	-14.5
Real estate	3.6%	4.8%	+1.3
Other invested assets	2.7%	4.3%	+1.6
Cash & short-term	6.8%	6.0%	-0.7

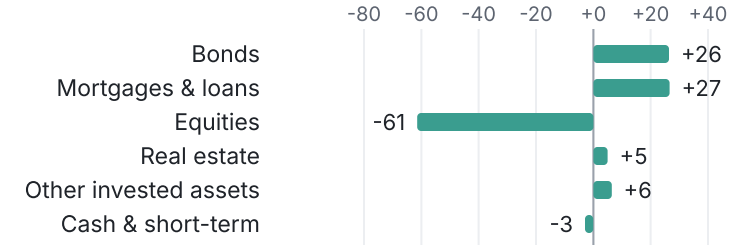

Rotation per year (pp of portfolio)

What management says about repositioning

- 2025: Data, not narrative: public shares fell from C$29.8mm to C$0.5mm while bonds rose C$5.7mm and a first C$3.2mm private-debt fund allocation appeared (AR balance sheet).
- 2025: Net investment result fell to C$5.4mm from C$19.0mm (fair-value change -C$6.8mm); no management commentary on the drivers or on target mix.
- 2025: Strategy narrative is operational (2025-2027 plan: digital transformation, IWME product line, travel embedded insurance); no asset-allocation targets published.

Net reallocation since start, C$MM

Desjardins Insurance: general account run by Desjardins Global Asset Management Inc., alongside Guardian Capital Group

Who manages the money

DFS assets managed by affiliate Desjardins Global Asset Management (DGAM, C$129bn AUM pre-Guardian; ~C$280bn AUM/AUA after the Mar-2026 C$1.67bn Guardian deal) across fixed income, equities, infra, real estate, private investment and LDI (inferred mandate).

How it works

- DGAM clients include insurers and pensions; third-party profile: DGAM 'manages assets chiefly from the equity of insurance subsidiaries' (inferred DFS GA mandate)
- DGAM capabilities: fixed income (>C$76bn), Canadian/global/EM equities, direct infrastructure and real estate, private investment, quant, SAA/LDI, index, RI
- Group Treasury (under EVP Finance) runs funding, covered bonds, repos, securities lending; DFS runs its own rate and seg-fund hedging
- DFS price-risk policy: hold the assets underlying par and seg-fund liabilities; limits by investment type, issuer, geography under a governance committee
- 2025 'one-time change to investment strategy': sold C$947mm FVOCI equities (gain C$225mm); insurance-held common shares C$898mm → C$126mm

Disclosed targets

All	Not disclosed for DFS; policies set exposure limits by investment type, issuer...

Desjardins Insurance: no published portfolio history

Invested-asset mix

No asset-mix history is published for this insurer (no OSFI return, no separate annual report with an invested-asset breakdown).

What management says about repositioning

- 2025: one-time strategy change sold C$947mm FVOCI equities held for insurance (common C$898mm → C$126mm; prefs kept at C$885mm), gain C$225mm.
- 2024: L&H took losses on bond disposals and a fair-value decline on infrastructure; 2025 net insurance finance result +39.5% to C$498mm.
- 2026: Guardian Capital (closed 2026-03-23) adds global equity, fixed income, private wealth; DGAM+Guardian ~C$280bn AUM/AUA; Group AUM C$306bn Q2-26.
- 2025: DFS hedges seg-fund and UL minimum-rate guarantees; risk-mitigation effect +C$127mm in 2025; annuity premiums halved to C$737mm as PRT volumes fell.
- 2026 L&H priorities: ease of business, sustainable growth, digital/data modernisation, sustainability; wealth: expand Ontario, Atlantic, West.
